ABOUT HEAL NEXUS

Heal Nexus is a comprehensive platform designed to simplify healthcare access. It allows patients to compare and select healthcare providers, manage appointments, and utilize a wide range of medical services. The platform enhances the patient experience with features like appointment booking, specialist search, medicine orders, report generation, and secure payment processing.

Key Features of Heal Nexus

Login & Registration: Patients can securely create accounts, log in, and manage their profiles.

Search Specialists: Patients can search and filter doctors by specialty, location, and ratings.

Book Appointments: Users can view doctor profiles and available slots to book and cancel appointments.

Provide Reviews: After appointments, patients can rate and review specialists.

Order Medicine: Patients can order prescribed medicines online for home delivery.

Manage Appointments: Doctors can view, update, and cancel patient appointments.

Prescription Management: Doctors can create and manage prescriptions, which are accessible to patients and pharmacies.

Manage Users & Specialists: Admins can manage user roles, specialist profiles, and update details in real-time.

Emergency Services: Hospitals can efficiently manage and dispatch emergency services.

Report Generation: Pathologists can generate and upload reports that are shared with doctors and patients.

Prescription Management: Doctors can create and manage prescriptions, which are accessible to patients and pharmacies.

Manage Users & Specialists: Admins can manage user roles, specialist profiles, and update details in real-time.

Emergency Services: Hospitals can efficiently manage and dispatch emergency services.

Report Generation: Pathologists can generate and upload reports that are shared with doctors and patients.

Payment System: Secure payment processing for services and medicines is integrated.
